Gentlemen:

Your closed and covered disposal site located immediately east of your operating landfill was inspected on June 28, 1978, by Tom Scotese, representing this Agency.

The inspection disclosed the following condition(s) which constitute violations of the Environmental Protection Act and Chapter 7 of the Illinois Pollution Control Board Solid Waste Rules and Regulations:

... Leachate was observed to be seeping from the west-facing slope in the west-central part of the site into the flood plain to the west. You should take immediate action to correct this situation.

It is suggested that you take immediate steps to resolve the conditions described above.

Sincerely,

Rene' Van Someren, Central Region Manager
